

Directions for use

AFSCHMINK Make-up Remover

Grimas Afschmink is a traditional make-up remover based on oils and waxes. Afschmink is used for removing Grimas Crème Make-up Pure.

Procedure

Take Afschmink out with a spatula, massage in and remove with a tissue. Cleanse the skin afterwards with Grimas Cleansing Lotion.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

AFSCHMINK Make-up Remover

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.

Dr.med.Werner Voß
