

Directions for use

CLEANSING LOTION

Cleansing Lotion

Grimas Cleansing Lotion is a cleansing lotion that extra cleanses and degreases the skin, to use both before and after make-up.

Procedure

Moisten a cotton wool pad with Grimas Cleansing Lotion and you have a convenient cleanser for various applications;

If the skin has been (after)cleaned with Cleansing Lotion, make-up can be applied more easily and without irregularities.

If anything is to be stuck to the skin (Grimas Derma Wax, Nose Wax, Latex, Bald Cap), treating the skin with Cleansing Lotion first will improve adhesion.

With the aid of Cleansing Lotion you can make an eyeliner from Grimas Eyeshadow/Rouge.

You can also use it to remove Eyeshadow/Rouge.

You also use the Cleansing Lotion to remove any traces of colour that are left behind on the skin after make-up is removed.

Safety information

CLEANSING LOTION

Cleansing Lotion

25 ml

100 ml

Packaging:	Colour: transparent (bottle) Content: 25 ml (bottle with spout top) Content: 100 ml

2-Bromo-2-nitropropane-1,3-diol	0.05

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

CLEANSING LOTION Cleansing Lotion

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.
