

Directions for use

EYELASH ADHESIVE

Eyelash Adhesive

Grimas Eyelash Adhesive is a transparent adhesive based on latex, used for gluing eyelashes and pieces of eyelash to the skin.

Eyelash Adhesive is because of its composition also suitable for concealing the edges of Grimas Latex Noses and Sets.

Procedure

Eyelashes

Apply a little Eyelash Adhesive to the hand and then apply a small amount of adhesive along the eyelash edge with the point of a spatula or the back of a brush.

Pieces of Eyelash

Apply a little Eyelash Adhesive to the hand, dip the 'root' in the adhesive and place it on the edge of the eyelash.

Seal the eyelash adhesive properly after use.

Removal

Eyelash Adhesive can easily be loosened and rolled off the eyelashes or the skin.

Safety information

EYELASH ADHESIVE

Eyelash Adhesive

3.5 ml

Packaging:	Colour: white (tube) Content: 3.5 ml
Appearance:	White pasty liquid.
Ingredients:	See label and composition.
Toxicology:	Assessed against the Cosmetics Regulation (1223/2009/EC).
Improper use:	Assessed according to the standard of consuming regularly the content of the largest package size (3.5 ml). No toxicological effect.
Bacteriology:	Contains less than 50 CFUs/g of bacteria, yeasts and moulds. Pathogens: not present. Work hygienically: with clean hands and clean materials.
Dermatology:	See dermatological declaration.
Use on children:	Can be used for children.
Around the eyes:	May be used near the eyes.
On the mucous membranes:	May be used on the mucous membranes.
Make-up in the eyes:	Rinse with water.
Durability:	See label with symbols:  = period-after-opening  = date of minimum durability
Storage:	Close packaging properly. Store in a dry, dark place.

Composition

EYELASH ADHESIVE Eyelash Adhesive

INCI	<%
Rubber latex, PVP	70
Aqua	40
Magnesium aluminum silicate	1
Peg-7 glyceryl cocoate	1
Xanthan gum	1
Phenoxyethanol	0.97
2-Bromo-2-nitropropane-1,3-diol	0.03

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

EYELASH ADHESIVE Eyelash Adhesive

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.
