

Directions for use

FOUNDATION Foundation

Grimas Foundation is a matt liquid make-up that can be applied both covering and transparent. Extremely well suited for beauty, film, photography, et cetera.

Procedure

The foundation can be applied directly onto the skin. With a dry or sensitive skin, you can apply Grimas Under Make-up Base. Allow 10 minutes for it to be absorbed before you continue.

Hint: If you are applying eye shadow on top of the Foundation base, do not apply Foundation to the eyelids. Do apply Foundation to the lips.

Apply some foundation on a clean spatula. If you want a more transparent but still mat result, you can mix the Foundation on the spatula with Under Make-up Base. Work from the spatula using a clean, dry latex sponge or a slightly moist make-up sponge, applying the foundation to the skin in a thin layer. By repeating this process you make the Foundation more and more covering, without the skin starting to get shiny.

Hint: Work the base out properly, up into the hairline, and do not forget the ears and neck. This is how you avoid a mask-like effect.

To fix and mattify, you can powder the Foundation off with Grimas Fixing Powder or Make-up Powder. If you want to affect the colour more, you can use Grimas Compact Powder or Colour Powder.

Removal

You remove Foundation with Grimas Cleansing Cream or Cleansing Milk. Cleanse the skin afterwards with Grimas Cleansing Lotion.

Foundation should preferably be stored in dry, dark and cool conditions.

Safety information

FOUNDATION Foundation

20 ml

Packaging: Colour: black + transparent (3 ml + 20 ml pump)
Content: 20 ml

Appearance: Liquid cream in skin tones.

Ingredients: See label and composition.

Toxicology: Assessed against the Cosmetics Regulation (1223/2009/EC).

Improper use: Assessed according to the standard of consuming regularly the content of the largest package size (20 ml).
No toxicological effect.

Bacteriology: Contains less than 50 CFUs/g of bacteria, yeasts and moulds. Pathogens: not present.
Work hygienically: with clean hands and clean materials.

Dermatology: See dermatological declaration.

Use on children: Can be used for children.

Around the eyes: May be used near the eyes.

On the mucous membranes: May be used on the mucous membranes.

Make-up in the eyes: Rinse with water.

Durability: See label with symbols:
 = period-after-opening
 = date of minimum durability

Storage: Store in a dry, dark place.
