

Directions for use

MAKE-UP REMOVER Make-up Remover

Grimas Make-up Remover is a liquid remover with a mineral oil base. It contains no preservatives and is used for removing make-up (including waterproof mascara).

Not suitable for Water Make-up.

Procedure

Use a cotton wool pad soaked in Make-up Remover. If necessary, further cleanse the skin with Grimas Cleansing Lotion.

Make-up Remover is also suitable for cleaning brushes. Wash the brushes afterwards with water and soap.

Composition

MAKE-UP REMOVER Make-up Remover

<u>INCI</u>	<u><%</u>
Paraffinum liquidum	100

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

MAKE-UP REMOVER Make-up Remover

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.

Dr.med.Werner Voß
