

## Directions for use

### TIPCRÈME Tipcrème

Grimas Tipcrème is a clear, glossy polyethylene glitter providing a quick-drying and easily washable gel texture. It is for instance used for face-painting. Contrary to what the name 'crème' might suggest, the gel does not contain oils or waxes.

#### Procedure

Tipcrème can be applied directly onto the skin or into the hair. You can apply it directly from the tube or with a brush.

If the Tipcrème is applied on top of the Water Make-up, one must work quickly and without rubbing.

#### Removal

You remove Tipcrème with Grimas Cleansing Cream or with water and soap.

## Safety information

### TIPCRÈME Tipcrème

8 ml

<b>Packaging:</b>	Colour: transparent (tube) Content: 8 ml
<b>Appearance:</b>	Clear cream with glitter in various colours.
<b>Ingredients:</b>	See label and composition.

<b>Durability:</b>	See label with symbols:  = period-after-opening  = date of minimum durability
<b>Storage:</b>	Store in a dry, dark place.

## Composition

### TIPCRÈME Tipcrème

INCI	<%
Aqua	85
Polyethylene terephthalate, Polyurethane-11, Acrylates copolymer	20
Xanthan gum	5
Peg-40 hydrogenated castor oil	1
Phenoxyethanol	0.8
Methylparaben	0.2
2-Bromo-2-nitropropane-1,3-diol	0.05
CI 15850, CI 19140, CI 77000, CI 77510	10

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

## Dermatological declaration

### TIPCRÈME Tipcrème

In the dermatological declaration one can read the following:  
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

#### CONCLUSIONS

Under the conditions of this test we found no evidence of primary irritation or allergic hypersensitivity.

None of the thirty patch-tests resulted in positive reactions after 24, 48 and 72 hours.

The investigating specialist for dermatology and allergology considers this test-product safe for use.

Dr.med.Werner Voß

Investigating specialist  
for dermatology and allergology

## Safety declaration

Has been evaluated at:

The toxicity profile of the ingredients used, taking account of any contaminants present.

Interactions between the various raw materials.

Quantities of weight and volume the consumer is exposed to.

Foreseeable improper use by the consumer-group.
