

Directions for use

LIPSTICK METALLIC PURE

Lipstick Metallic Pure

Grimas Lipstick Metallic Pure is an unperfumed metallic gloss lipstick without chemical preservatives.

Pure means that the product in question does not contain any chemical preservatives (such as parabens) or halogenated organic compounds. The 'pure' products, like all Grimas products, are also gluten-free and unperfumed.

Procedure

Take the Lipstick (Pure) onto a spatula (even if you are working from a stick) and apply it with a lip brush. First colour the middle of the lips and then colour the edges, working from the outside inwards.

Removal

You remove the Lipstick with Grimas Cleansing Cream or Cleansing Milk.

Safety information

LIPSTICK METALLIC PURE

Lipstick Metallic Pure

2.5 ml

3.5 g

4 x 2,5 ml

6 x 2,5 ml

12 x 2.5 ml

Packaging:

Aroma	0.05
CI 77000	50
CI 77491	50
CI 15880	10
CI 77510	10

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

LIPSTICK METALLIC PURE Lipstick Metallic Pure

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

patch test
Grimas Lipstick Metallic Pure

CONCLUSION

No evidence of any skin disorder was detected in the test area of any of the 30 panellists after conducting patch testing for 24 h, 48 h and 72 hours according to the internationally recognised guidelines of ICDRG (International Contact Dermatitis Research Group).

It can be concluded that the use of the product will not cause any unwanted skin reactions due to an irritating effect.

Safety declaration

Has been evaluated at:

The toxicity profile of the ingredients used, taking account of any contaminants present.

Interactions between the various raw materials.

Quantities of weight and volume the consumer is exposed to.

Foreseeable improper use by the consumer-group.
