

Directions for use

LIQUID MAKE-UP

Liquid Make-up

Liquid Make-up is a ready-to-use liquid face paint, that can be used hygienically from the packaging.

Water-based make-up

Fast drying

Perfect covering result

Safe to use near the eyes and on the lips

Unperfumed

Gluten-free

paraben free

Colours can be mixed together

Easy to remove with water and soap or shampoo

Procedure

Apply the required amount of Liquid Make-up from the packaging onto a Mixing Palette. The make-up is now immediately ready to use.

Preferably use a soft brush from our collection of Imitation Mongoose Brushes for application. The Teardrop Sponge works great for larger areas.

Use our Finger Sponge - Daubers in combination with a Make-up Template to quickly and easily apply a design onto the skin.

Removal

Lightly wash the skin with lukewarm water and soap or shampoo to remove the make-up. Remove any remaining traces of colour with Cleansing Lotion or Multi Remover Pure. Do not use ready-to-use cleansing cloths.

Clean the used materials with water and soap or shampoo. Finally, use Hygienic Gel for extra hygienic cleaning.

Safety information

LIQUID MAKE-UP

Liquid Make-up

8 ml

20 ml pump

Packaging:

Colour: transparent (tube)

Colour: black + transparent (3 ml + 20 ml pump)

Content: 8 ml, 20 ml pump

Appearance:

Liquid in various colours.

Ingredients:

See label and composition.

Toxicology:

Assessed against the Cosmetics Regulation (1223/2009/EC).

Improper use:

Assessed according to the standard of consuming regularly the content of the largest package size (20 ml).

No toxicological effect.

Bacteriology:

CI 77492	10

The ingredients that are present in the product in the greatest proportions are listed first.

Ingredients that are present in the product to less than 1%, are listed in random order at the end of the list. Then the pigments and colorants are addressed, even if they are used in large quantities.

< is less than.

Dermatological declaration

LIQUID MAKE-UP

Liquid Make-up

In the dermatological declaration one can read the following:
The products have been dermatologically tested for 24, 48 and 72 hours on 30 persons with healthy skin. No irritation occurred.

CONCLUSION

No evidence of any skin disorder was detected in the test area of any of the 30 panellists after conducting patch testing for 24 h, 48 h and 72 hours according to the internationally recognised guidelines of ICDRG (International Contact Dermatitis Research Group).

It can be concluded that the use of the product will not cause any unwanted skin reactions due to an irritating effect.
